concept and product design by Antonio Bullo

Una famiglia che da cinquant'anni opera nel mondo della ceramica, tra ricerca e produzione industriale, modellando le superfici con sensibilità ed un innato e raffinato senso estetico.

ETO' è l'esperienza maturata che diviene competenza, la capacità di utilizzare consapevolmente le conoscenze e le abilità acquisite per poter confrontarsi con i vertici del settore, accogliendo le sfide della modernità.

ETO' è la realizzazione di un desiderio che nasce dalla volontà di riconoscere e valorizzare il legame inscindibile tra passato ed innovazione, dimostrando come un pensiero possa evolversi intraprendendo un innovativo ed originale itinerario produttivo.

/ EN

A family working over fifty years in the world of ceramics, between artistic research and industrial production, shaping surfaces with expressive sensitivity and an innate and refined aesthetic sense.

ETO' is the experience acquired that becomes competence, the ability to consciously use knowledge and skills acquired to be able to compete with the leaders in the industry, welcoming challenges of modernity.

ETO' is the implementation of a wish that is born from the will to recognize and enhance the inseparable link between past and innovation, showing how a thought can evolve by undertaking an innovative and original production trail.

/ FR

Une famille qui depuis cinquante ans opère dans le monde de la céramique entre recherche et production industrielle, façonnant la matière avec une sensibilité et un sens esthétique inné et raffiné.

ETO' est l'expérience qui devient compétence, capacité d'utiliser consciemment les connaissances et les habiletés acquises pour être en mesure de rivaliser avec les leaders de l'industrie pour ainsi relever les défis de la modernité.

ETO' est la réalisation d'un désir qui est né de la volonté de reconnaître et valoriser le lien inséparable entre le passé et l'innovation, démontrant comment une idée peut évoluer en prenant une voie de production innovante et originale.

/ RU

Более пятидесяти лет наша семья занимается вопросами разработки и производства в области керамики, создавая новые формы с особым вниманием и прирожденным уточненным эстетическим вкусом.

ETO' – это накопленный опыт, который трансформируется в компетентность, способность осознанно использовать приобретенные знания и умения, чтобы, принимая вызовы современности, быть на одной высоте с самыми известными компаниями в данном секторе.

ETO' – это исполнение мечты, рожденной желанием признать и раскрыть потенциал неделимой связи между прошлым и настоящим, чтобы доказать, что идея может развиваться, следуя по инновационному и оригинальному производственному пути.
