ISVEA BATHROOM

ITALIAN GUSTO FOR 60 YEARS

These ancient lands, nourished by the generosity of the Mediterranean and enriching its inhabitants with the richness of its nature, constitute the heart of human journey to the better and the beautiful since antiquity.

This geography, where the good and the beautiful were bequeathed with the fire of the Renaissance, is the source of our search for the aesthetic in everything we own today.

It has brought the world the people who seek refinement on the fertile lands of the Italian peninsula with the fascinating Italian cuisine blended with the generosity of the Mediterranean. The quest to spread aesthetics to the whole of life has led to the transformation of an architectural understanding that has embraced human beings since time immemorial into an Italian architectural understanding that responds to the functional and aesthetic needs of modern man. The cultural values that these lands have accumulated almost throughout human history have shaped the way modern people dress and the appearance of the objects they need. The practice of reflecting on the human with the Renaissance is the source of today's practice of aestheticizing human values and needs.

This land where ISVEA was born, grew up and spread around the world is the source of a refined taste, i.e. the Italian gusto. We have been developing and sharing what this gusto has given us with the world for 60 years. With each passing day, we want to share an inspiring world for people by creating unique, bold and stunning products that are more and more captivated by this refined taste.

This is our 60th year in this land where the heart of good and beauty beats.

Automatic and Soft Close Awarded Hettich Sensys Hinges

Hettich Sensys hinges, preferred in one of every two cabinets in Germany, provide silent and safe closing with minimal touch, thanks to their automatic and soft-close features from an angle of 35 degrees. They operate in full function in the temperature range of +5°C to +40°C. Hettich Sensys hinges, which have won many awards with their stylish appearance, silent system and durability, come to the fore with the innovative benefit in furniture equipment.

FSC Recycled: Products that bear this label contain 100% recycled content (either post consumer or preconsumer reclaimed materials).

DISEGNO COLLECTION INFINITY New Elegance for Bathrooms INFINITY bathroom furniture bearing signature of Designo, ISVEA's top segment design series, is designed for those who want to make free choices in the bathroom. When designing INFINITY, the Isvea design team envisioned a modular structure for the modern urban bathroom that can be shaped according to the space and needs. INFINITY, offering 5 different combinations of sizes ranging from 80 to 150 cm, has two full-extension drawers, one with a glass divider, on all washbasin modules. It offers the chance to choose between single and double washbasins or furniture compatible washbasins with etagere alternatives.

In the lower module, 5 mm thin-edged sharp&slim Infinity series bowl basins and UltraFlat washbasin family with UltraFlat shelf, bearing the signature of ISVEA's Italian design partner WAU Architetti, were preferred. INFINITY offers the comfort and functionality needed in the bathroom with its side cabinet that can be used separately or combined, tall cabinet with large storage volume, and LED illuminated mirror. Giving as much importance to elegance as function in its design, INFINITY complements its matte lacquered doors with fluted panel, with and brushed gold handles. Available in 6 different colors, INFINITIY is fully compatible with ISVEA's sophisticated sanitaryware color palette COLORISVEA

colors. Offering alternatives in color combinations as well as its modular structure, INFINITY appeals to those

looking for freedom in bathroom design.

DISEGNO COLLECTION SOGNO

Modern Transformation of Classic Lines

SOGNO, the new bathroom furniture from ISVEA's premium design series, bearing signature of Designo, brings the charm of rounded lines to modern bathrooms with a new interpretation of classic lines. When designing SOGNO, the ISVEA design team focused on blending traces of classic design with a modern perspective.

In the lower module of Sogno, which offers a compact and convenient experience with its 100 cm size, 5mm thin-edged sharp&slim INFINITY series, bearing the signature of ISVEA's Italian design partner WAU Architetti, were used. With two drawers, one of which has self divider, a anti-slip matt and push-to-open feature, SOGNO is both practical and stylish with its double doors and round shaped cabinet mirror with glass shelves. Offering effective storage spaces thanks to its two full-extension drawers and double door mirror cabinet, SOGNO creates all the storage space needed in the bathroom for the user thanks to its spacious tall cabinet with glass shelves. SOGNO, the modern interpretation of the classic design line, is positioned as a remarkable and useful object in the bathroom rather than a piece of furniture with its amber, midnight blue, sand and anthracite color matte lacquer alternatives.

DISEGNO COLLECTION RINATO

Modern Interpretation of Retro

RINATO, the new bathroom furniture from ISVEA's premium design series, bearing the signature of Designo, blends retro lines with a modern design approach.

When designing Rinato, the ISVEA design team aimed to bring a modern interpretation to the traditional woodworking technique of fluted panel.

In RINATO, which creates a useful countertop space thanks to the 120cm wide labavo module with solid wood countertop, the sharp & slim Infinity series with 5mm thin edge, bearing the signature of ISVEA's Italian design partner WAU Architetti, was used as a washbasin. With two deep drawers, one with a self divider, a hidden drawer with a glass divider, a led illuminated mirror cabinet, a side cabinet and a tall cabinet with a large storage volume, there is a place for everything needed in the bathroom in RINATO!

Combining cream and pastel green, which is the most "hype" tones of retro, and matte lacquered body with attractive shiny gold handles, Rinato shares a stylish and timeless experience with its user.

AGATHA

AGATHA, the Expression of Intersecting Tastes...

The designer invites the user to accompany a nostalgic adventure by hiding AGATHA's dominant retro design lines under its neo-classical washbasin and gold-plated jewel-like handles.

AGATHA opens the doors to a timeless bathroom with its pastel color palette, texture dominated by intersecting lines and two different mirror alternatives that complement its design.
