FEATURES

Fireclay Ceramic

It is advantageous compared to alternative materials in all areas where it is used and stands out with its feature of preserving its color structure for many years.

Flat Flooring

It is now very easy to enter the shower area with its flat design.

Inclined Drain System

Thanks to its special inclined drain system and its water-tight structure, it can be used safely in your bathroom.

Special Non-Slip Surface

With its special non-slip surface, it makes it possible to wash in the bathroom without any risk of slipping.

Hygienic

With its drain design and structure that does not require a single-piece joint, it provides complete hygiene in the shower area, where hygiene is very critical.

Stain Resistant

Stain Resistant

Easy Application

With its single-piece body, drain and siphon elements can be assembled quickly and effortlessly.

COLORISVEA

Fireclay ceramic shower trays are now available with COLORISVEA colors...
