About Roca

Roca is a family-owned company dedicated to the design and production of solutions for the bathroom space. From our beginnings in Barcelona in 1917, we have grown into a global benchmark in sanitaryware. Roca is now one of the largest producers of bathroom products on the planet, operating 76 production facilities across five continents, employing over 21,000 people and serving over 170 markets.

Barcelona
 Since 1917
 76 Production
 facilities
 5 Continents
 21,000 People
 170 Markets

Our designs are intuitive and intentional. Our philosophy is one of perpetual improvement, and we constantly seek to improve our product experience. Drawing on the knowledge and expertise of our global network, as well as over 100 years of experience in the sector, we develop innovative solutions that refine your bathroom while bringing comfort and simplicity to your daily routine.

Design is ingrained in everything we do. Our team of experts, often through collaborations with some of the world's leading designers, consistently create products and collections that drive

innovation in the sector. These teams, along with our cutting-edge facilities, manufacturing prowess and exceptional production capacity, have allowed us to maintain our position of global leadership for more than a century.

Even while achieving a presence in over 170 markets across the world, we have remained close to our roots. From the beginning, we have been active participants in Barcelona's design culture, where forward-thinking ideas and vernacular styles go hand-in-hand to create natural, intuitive solutions that enhance daily living. We will continue both to draw from and contribute to this community.

We recognise that our position of global leadership comes with responsibility. We seek to set the standard in sustainability at every step of the manufacturing process: from the acquisition of materials, through to production, logistics, packing and shipping. We design our products with sustainability and efficiency in mind, from toilets that minimise water consumption to furniture made with wood sourced from responsibly-managed forests.

We also carry out projects that help address some of the most pressing global challenges of our time. To this end, our foundation We Are Water works to promote a culture of sustainable, responsible water management, and to provide safe, reliable access to clean water in some of the most disadvantaged communities across the globe.

Our commitment to the planet extends into the social field. We are serious about our responsibility

towards our employees and the communities we serve. Our aim of improving people's lives both within and outside the company has led us to promote initiatives that foster talent and improve the customer experience. We organise design competitions, such as the jumpthegap® and the One Day Design Challenge, which provide opportunities for emerging designers to showcase their creativity and expand their professional networks. And through our six international Roca Galleries, and web platform rocagallery.com, we host events, talks and articles which foster dialogue around some of the planet's most important issues.

We celebrate the small, daily moments of domestic happiness. The bathroom is an intimate space of self-care which can enhance users' daily lives. At the heart of our business is the desire to develop attractive and functional solutions that contribute to improved wellbeing and better standards of living.

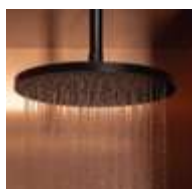

We make
people live the
best bathroom
experience

Smart Toilets

Roca's smart toilets offer a range of options to suit different preferences and budgets combining cutting-edge technology, hygiene and comfort to provide users with a modern and connected bathroom experience. Personalised programme settings and easy maintenance and cleaning management can be tailored to individual needs through the Roca Connect App.

Combining
cutting-edge
technology
with maximum
hygiene and
comfort

Technologies

In-Wash®

Complete wash. Built-in retractable nozzle that directs the water to the most intimate parts, guaranteeing a comprehensive cleanse.

Customizable. The position of the nozzle, the water and air pressure, and the temperature can all be regulated and adjusted.

Easy and Total Control. Mobile app, remote control and side panel to control the functions.

Cleaning. Automatic cleaning of nozzle before and after each use, and water filter that removes waste and impurities. The detachable nozzle ensures effortless cleaning and maintenance.

Easy assembly. Straightforward installation with a standard utilities connections.

Coanda effect. High-performance drying in which fluids tend to follow the surfaces. The design of the nozzle directs air to the precise point where it is needed for peak drying performance at any power level.

Multi-Stream. Different rear wash modes to suit individual preferences.

Hygiene Flush. A distinctive feature by Roca, combining thorough cleaning with subtle aromatization. With every flush, a refreshing fragrance is released.

Roca Rimless® Vortex

Maximum hygiene. A real rimless solution with a powerful 360° flush exceeding EU hygiene standards. A design that facilitates cleaning with minimal water consumption.

In-Tank®

Space-saving. In-Tank® technology, a signature innovation by Roca, where the water tank is integrated in the bowl, maximising available space, unifying aesthetics and practicality in the bathroom.

Materials

Supraglaze®. An exclusive Roca glazing which guarantees even greater hygiene as any dirt particles and bacteria are more easily removed.

Bathroom Collections

The design and innovation of bathroom collections that transform the everyday bathroom experience is woven into the 100-year history of Roca. A combination of traditional stoneware and high-tech innovation in ceramics generate durable and anti-bacterial surfaces with new aesthetic possibilities for different shapes and designs. Technologies such as Roca Rimless® underscore the company's ongoing passion to create the best bathrooms for everyone. An extensive range of styles can be found in washbasins, toilets and bidets. Each piece is set apart by their diverse aesthetic and remarkable longevity, a key characteristic of sustainability.

Key Benefits

Hygiene. Zero porosity surface that prevents the absorption of water and the proliferation of humidity and bacteria.

Quality. Made with an exclusive mineral composition, our consistent and robust pieces undergo rigorous testing and controls.

Durability. The high-quality glaze provides stability against abrasive products, extreme temperatures or ultraviolet light.

Resistance. Solid and robust, with outstanding static resistance verified by load tests of up to 400 kg.

Technologies

Roca Rimless®

Easy cleaning. An interior bowl with no hidden nooks and crannies for dirt and germs to accumulate makes cleaning easier than ever.

Effective flush. Maximum power propels the water with more force and distributes it evenly over the entire surface ensuring a more effective hygiene, surpassing EU standards.

Roca Rimless® Vortex

In addition, Roca Rimless® Vortex features an improved water flow with three extra benefits:

Maximum hygiene. An effective 360° whirlwind flush system with an enhanced water path to ensure complete coverage of every part of the bowl up to four times.

Extra silent. A smoother and more efficient water outlet reduces turbulence and noise.

No splashback. The optimised circular motion of water puts an end to splashing and considerably reduces the effect of aerosols.

Each piece is set apart by their diverse aesthetic and remarkable longevity, a key characteristic of sustainability

A combination of traditional stoneware and high-tech innovations in ceramics enable new aesthetic possibilities

Materials

Surfex®

Durable material. Made up of a combination of solids, resins, catalysts and promoters, obtaining a highly durable material as a result.

Warm texture. Providing a natural and pleasant sensation to the touch.

Sophisticated finish. Smooth and matt touch, the result of its mineral and resin composition.

Variety of shapes. Highly malleable material that adapts to the most varied profiles, angles and lines.

No visible joints. Surface with a homogeneous colour and a perfect finish in a matt tone, with no visible joints.

Hygienic. Zero porosity material, exclusive to Roca, that prevents the absorption of liquids and the proliferation of humidity and bacteria.

Repairable. Compact material that can be easily repaired and restored to its original appearance.

Sustainable. Composed of organic and 100% recyclable materials.

Cut to size. Easily adaptable to all types of spaces since it can be cut to size.

Supralit®

Hygienic. Zero porosity surface that prevents the absorption of liquids and the proliferation of humidity and bacteria.

Easy cleaning. Seats free of corners where dirt can accumulate, making maintenance easier.

Resistance. Exclusive formulation highly resistant to chemicals and ultraviolet light.

Sustainable. Supralit® seats contribute to reducing the environmental impact thanks to the 47% recycled material of plant origin used in their composition.

Fineceramic®

Lightness. Thinner walls that allow basins to be shaped with 40% less thickness.

Firmness. Innovative formulation creating parts that are 30% more resistant than conventional ceramic products.

Hygiene. 100% ceramic material with zero porosity vitrified enamel.

Durability. High resistance to abrasive products and ultraviolet light.

Supraglaze®

Antimicrobial. Super smooth surface of this antimicrobial glazing prevents the spread of viruses and growth of bacteria.

Extremely smooth Surface. Waterproof, shiny, smooth surfaces. Sustainable, less water and cleaning products.

Efficient cleaning. Allows any dirt particles to slide off and inhibits the buildup of dirt.

Avant^N

The future in one piece

Avant, an innovative toilet, enhances the aesthetics and functionality of the bathroom space. It has an integrated cistern and a patented flushing system based on the Venturi effect, so it does not require an electrical socket. This cutting-edge, easy-to-install and space-saving solution is a real transformation in the home.

A Roca innovation, unique in the world

Avant is an innovative contribution to contemporary bathroom design that is committed to simplicity and functionality, with a neutral aesthetic that adapts perfectly to any bathroom space.

The innovative patented flushing system, based on the Venturi effect, improves the efficiency and speed of the flushing, being 15% quieter than other standard systems. Developed by the Roca Design Center in collaboration with SIAMP, this technological advance makes it possible to integrate the cistern without the need for electricity, eliminating barriers in all types of refurbishments.

Avant is easy to install and adapts perfectly to all types of spaces.

Its jointless flushing system minimises the risk of leaks, providing greater safety and facilitating maintenance.

Avant meets both design and functionality needs. Conforming to European standards and in particular to EN1717, Avant also prioritises the well-being and safety of all users.

Features and benefits

Avant is a toilet that combines functionality and advanced technology, prioritising innovation, efficiency and user experience.

The innovative **In-Tank**[®] design perfectly integrates the water tank into the bowl. This all-in-one solution allows the cistern to be concealed and saves space, harmonious combination of aesthetics and functionality. All components are easily accessible, thus simplifying installation and maintenance work.

The **Roca Rimless Vortex**[®] dual flushing system is an outstanding feature that revolutionises hygiene and water saving. The efficient 360° flushing system provides extra cleanliness, as well as avoiding splashing and being extremely quiet, which improves the overall user experience.

Supraglaze[®] is an exclusive Roca enamelling technology that maximises hygiene and simplifies cleaning. The low-porosity enamel layer prevents the adherence of dirt, making cleaning easier and reducing the consumption of water and aggressive products.

The flushing mechanism stands out for its user-friendly easy to use, with side buttons that allow a comfortable and intuitive operation. Users can choose, with a simple gesture, between a 4.5-litre full flush or 3-litre partial flush.

The characteristics of the seat contribute to offering the highest level of comfort. The Avant seat offers optimal ergonomic support with a comfortable space dimension of 300 mm. The upholstered surface adds a touch of exclusivity and the cushioned drop ensures a pleasant and uncomplicated smooth experience for users.

Furniture Collections

With over 100 years of knowledge and expertise, Roca is Europe's leader in the production and manufacturing of bathroom furniture. Using new technologies and innovative designs, including proprietary finishes, quality materials, and enhanced hardware solutions, Roca's extensive catalogue of bathroom furniture transforms the look and feel of any bathroom space. Furniture units, auxiliary columns and accessories all meet the highest standards in versatility, accessibility and style, with an ongoing commitment to sustainability and social responsibility.

Transform the look and feel of your bathroom space

Key Benefits

Quality. Exquisite finishes, innovative materials and fine elements such as solid wood, marble or quartz.

Styles. Extensive catalogue of designs for every interior design project.

Adaptability. Diverse selection of sizes and typologies for all kinds of spaces and needs.

Wide range. Wide range of options including Unik solutions that encompass a base unit and basin.

Complementary products. Large variety of base units, basins, auxiliary units (such as column or top units), mirrors, and spotlights.

Comfort. Soft close system for drawers and doors to avoid bangs and noises.

Functionality. Fully extractable drawers allow easy access to the interior space. Drawers glide smoothly and securely.

Adjustable. High-quality door hinges enable easy adjustments in terms of height, depth, or sideways positioning. Reversible auxiliary units allow for left or right installation.

Capacity. Large drawers without a cut-out for the syphon provide generous storage volume.

Order. Drawers with built-in dividers, hidden compartments and organising boxes that enable a more optimal distribution of the contents.

Mirrors and Lighting

Good, focused lighting and a clean, spot-free mirrored surface help make the daily routine easy

A good mirror and proper lighting are as essential in the bathroom as a toilet. This is the space where your day begins and ends, where you take a moment to yourself and get ready for what's next. Roca's extensive collection of mirrors include a variety of designs and finishes for different bathroom styles. Good, focused lighting and a clean, spot-free mirrored surface, in the form of mirrored cabinets, small magnifying mirrors or illuminated mirrors with integrated LED lighting and a demister, help make the daily routine easy.

Key Benefits

Design. Wide variety of round, square or rectangular options to suit any style.

Technology. Models available with lights, demister device, adjustable lighting or perimeter lighting.

Finishes. In gloss, matt or wood, a wide range of options and a broad palette of contemporary colours.

Technologies

Naturlight. Models with high-efficiency AC LED technology to provide neutral and natural light.

Efficiency. Wall lights and mirrors with LED lighting that consume less electricity.

Touchless. Mirrors that enable the light or the demister device to be activated by means of a motion sensor.

Pictograms

Soft Close
Drawers

Drawers feature a softly closing system to offer increased comfort

Make the combination that suits you best in 4 steps:

Make a choice for the base unit from:

- 5 different sizes.
- 6 colours and finishes.
- 2 drawers or drawers + a cargo basket.

Chose between a porcelain basin or a countertop:

Define the type of basin you prefer or choose the Countertop that suits you best:

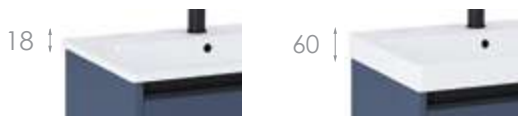

Basin taphole options:

- with a taphole on the left
- with a taphole on the right
- with a central taphole
- for 2 faucets

Basin board options:

- with a slim board
- with standard board

Countertop options: MDF (thickness 28 mm) or Marble (thickness 15 mm)

- 464 Light Oak (MDF)
- 806 Glossy White (Marble)
- 529 Matt White (Marble)
- 532 Matt Black (Marble)
- 538 Navy Blue (Marble)
- 534 Forest Green (Marble)

Add a final design touch with the handles of your choice:

- in Chrome finish
- in Matt Black

Novelty

Accessories Collections

There are many specific items with important functions in the everyday bathroom experience

Key Benefits

Styles. Innovative design in different styles and finishes.

Versatility. Wide range of products with deck-mounted and wall-mounted models.

Dual installation. Installation kit with screws or adhesive included.

Quality. High-quality and long-lasting materials.

Stability. Stable against abrasive products, extreme temperatures, and UV light.

Resistance. Wall-hung items withstand loads of up to 5 kg.

Quick fix system. Swift and easy installation.

Sustainable. Designed with recyclable materials, packaged, and produced with minimum environmental impact.

Evershine. Long-lasting and polished chrome plating.

Easy to clean. No specific products are required for maintenance.

Finishes

PVD Finishes. With a physical particle vaporization process that ensures an elegant, even, and scratch-resistant finish.

Painted finishes. With highly resistant polyester resins and pigments that maintain colour permanently.

Accessories are key components for a complete bathroom space. From wall-hung robe hooks to freestanding toilet roll holders or on countertop soap dishes, there are many specific items with important functions in the everyday bathroom experience. Different collections offer a variety of designs including metallic or colour finishes and embrace new materials such as wood, felt and cork, bringing a warm and tactile element to the bathroom space.

Specific Uses

Designing products with all users in mind, both for public and private spaces is an integral part of Roca's mission. Using the Clear Code Architecture® method designed by PMMT architecture studio, Roca can improve certain designs to fit universal accessibility guidelines. Beyond products, the Roca App builds more connections between users and products and creates greater user satisfaction. More knowledge about water use, energy consumption, maintenance and installation gives users peace of mind.

Designing products with all users in mind is an integral part of Roca's mission

Key Benefits

Accessibility

Security. Anti-slip and electrical insulating materials along with robust installation systems guarantee perfect attachment and maximum security.

Certified quality. Products subjected to rigorous approval processes to meet the highest safety and resistance standards.

Durability. Maximum resistance to corrosion, cleaning products, and wear and tear.

Communities

Water savings. Extensive catalogue of electronic and push-button basin mixer that can be adapted to different styles and needs.

Cut to size. Washbasins designed in Surfex® that can be adapted to different size and design requirements.

Resistance. High-quality materials that guarantee the durability and perfect condition of the products, even considering wear and tear.

Touchless products

Durability

High quality materials that guarantee maximum durability and high product maintenance over time.

Easy installation

Touchless solutions can be easily installed in our bathrooms to add an extra layer of safety for the benefit of the family's health.

Water saving

Wide variety of electronic and self-closing faucets that improve water use.

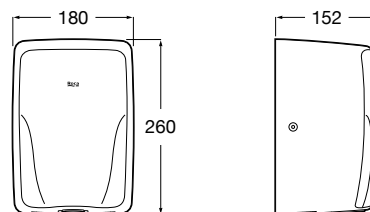

Touchless = Maximum hygiene

The flush activates without contact thanks to an integrated infrared sensor, avoiding the spreading of viruses and the growth of bacteria.

Electronic and self-closing faucets

Electronic and self-closing faucets are innovative devices designed to improve hygiene and comfort in bathrooms, especially in public or semi-public spaces. Electronic faucets automatically activate when it detects the presence of a user, eliminating the need for direct contact. The self-closing faucet requires a single push to activate and stops after a pre-set period of time. These modern and efficient technologies are perfectly aligned with the objectives of health and water conservation.

The precise control of water at your hands

Specific Uses

Benefits

Specially designed for public spaces with a high user traffic, its robust design ensures the durability of the product. Both incorporate concealed aerators to prevent vandalism.

Easy installation. The installation is the same as the standard single-lever faucet.

Reliability. Design and manufacturing process certified to ISO 9001:2008 and ISO 14001:2004 standards. The electronic faucets comply with the requirements of the European: European standard EN-15091:2006

Electronic Faucets

Hygiene. Designed with pure, modern lines and a non-contact operation, guaranteeing maximum hygiene.

Water and energy saving. Activation by presence infrared, providing waste-free water, and an automatic shut-off after automatic after 60 seconds of continuous use.

Mains operated or with batteries. The electronic models are suitable for public spaces with mains or battery. For models with batteries, the mixer incorporates a light indicator that activates when the battery is low.

Self-closing faucets

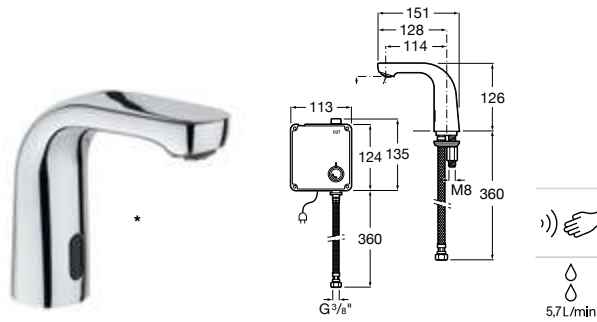

Saving water. Instant and Avant faucets with limited flow rate to preserve the environment. In Avant the water output time is predefined for efficient use.

Versatility of use. Versatile models suitable for various spaces such as hotels, offices, hospitals, schools, gymnasiums, campsites, nursing homes, shopping centres, bars and restaurants.

Installation Systems

Roca's installation systems are meticulously designed to seamlessly fit into any bathroom. These space-saving systems offer adaptable features and a range of solutions, including silent flush and adjustable options to ensure effortless installation. Water-saving is core to the design of all of Roca's installation systems.

Water and energy-saving features are core to the design of all of Roca's installation systems

Key Benefits

Compact solutions. Models that allow wall installation in spaces with a low fastening depth.

Resistance. Guaranteed static resistance of up to 400 kg.

Durability. High performance flush valve with 200,000 actuation cycles guaranteed.

Noise reduction. Features noise-reducing components.

Easy maintenance. Easy plate assembly and maintenance with convenient access to the inside of the cistern.

Versatility. For any type of installation, including fixation holes for wood and metal profiles. Smart toilet solutions available.

Adjustable. Easy height adjustment with a 0-200 mm brake system. Position and angle of outlet pipe can also be adjusted.

Water saving. Flushing volume is easily adjusted, various dual flush configurations and flow restrictors available.

Finishes

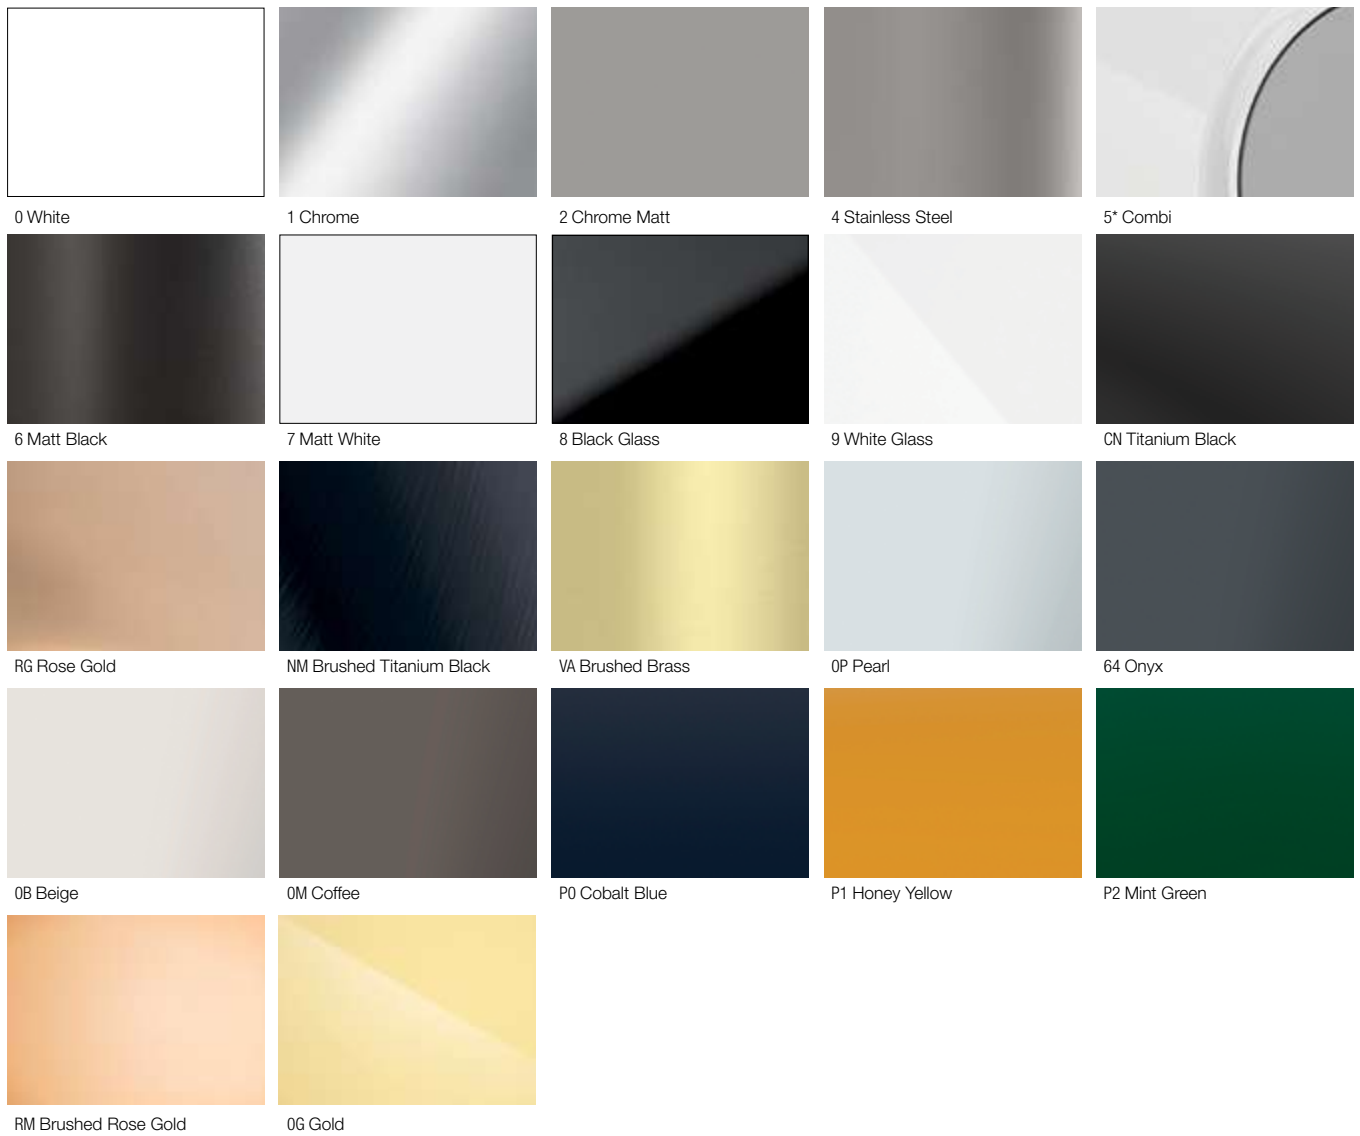

Matt Colours. Wide range of finishes matching other products with the same finishes.

PVD finishes. With a physical particle vaporization process that ensures an elegant finish.

Glass. Operating plates with sophisticated glass finishes.

For wall-hung WC

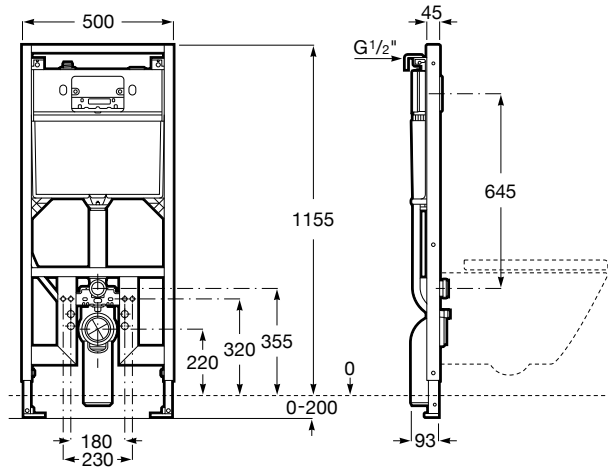

Duplo WC S ^(N)

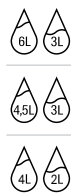

Built-in structure with compact dual-flush cistern for wall-hung WC, minimum depth of 90 mm. Axial distance of 180 and 230 mm. Elbow Ø90/Ø110. Metallic profile capable of withstanding 400 kg. Adjustable feet from 0-200 mm with braking system. Upper hydraulic connections. Flushing mechanism with Dual Cable Technology.

Ref. A8900A0020

1 013 RON

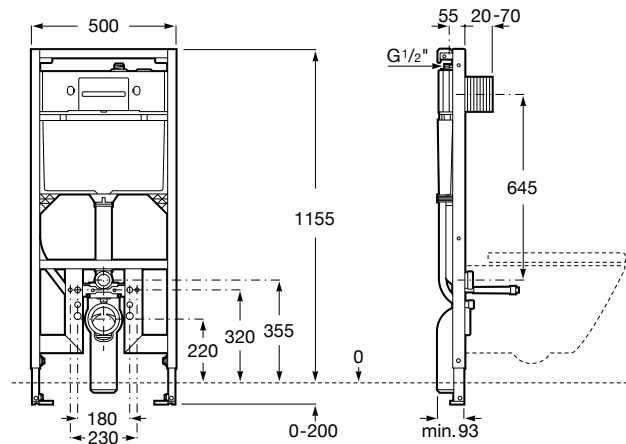

Duplo WC S Smart ⁽¹⁾ ^(N)

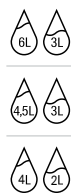

Built-in structure with compact dual-flush cistern for Smart Toilets and installation accessories, inlet flexible hose and corrugated tube, minimum depth 90 of mm. Elbow Ø90/Ø110. Flushing mechanism with Dual Cable Technology.

Ref. A8900A8020

1 267 RON

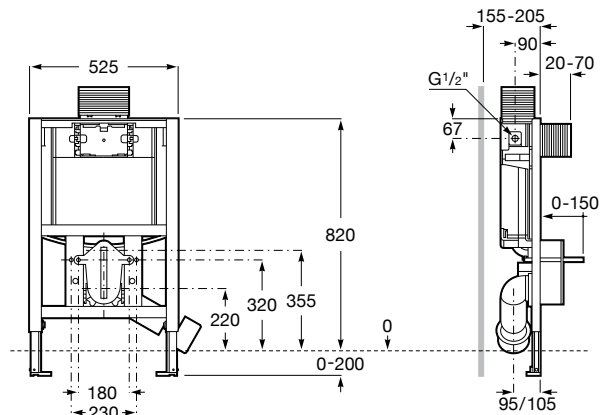

Duplo WC S Underwindow ⁽¹⁾ ^(N)

Built-in structure for toilet with dual flush system. Elbow Ø90/Ø110. Metallic profile capable of withstanding 400 kg. Installation minimum depth of 160 mm. Adjustable feet from 0-200 mm with braking system. Side hydraulic connections. Flushing mechanism with Dual Cable Technology.

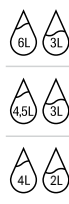

Ref. A8900A2020

1 219 RON

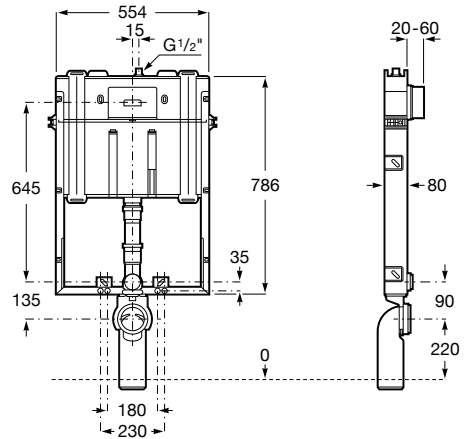

For wall-hung WC

Duplo S Basic WC Compact ⁽¹⁾ N

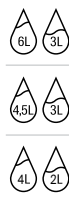

Built-in structure with compact dual-flush cistern for wall-hung WC, minimum depth of 90 mm. Elbow Ø90/Ø110. Axial distance of 180 and 230 mm. Upper and side hydraulic connection. Flushing mechanism with Dual Cable Technology.
Ref. A8900A0120
 759 RON

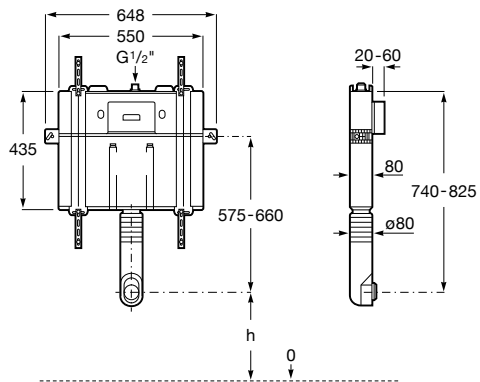

For floorstanding WC

Duplo S Basic Tank ⁽¹⁾ N

Built-in compact dual-flush cistern for single floorstanding toilets, minimum depth of 80 mm. Elbow Ø90/Ø110. Upper hydraulic connection. Flushing mechanism with Dual Cable Technology.
Ref. A8900A0200
 658 RON

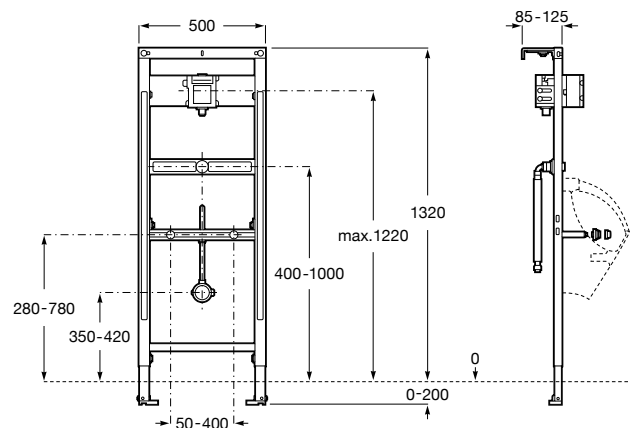

For urinal

Duplo S Urinal Fluxor* ⁽¹⁾ N

Built-in structure with single flush valve and installation accessories, minimum depth of 98 mm.
Ref. A8900F4200
 1 852 RON

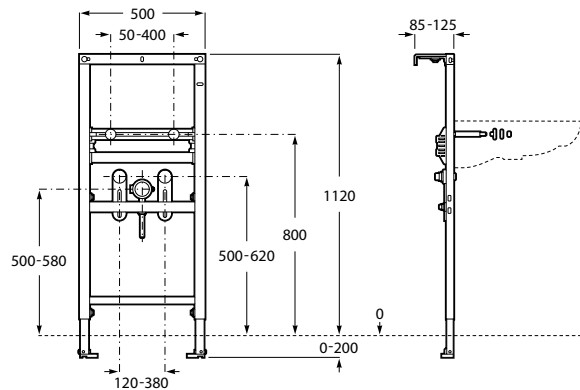

For basins

Duplo S Basin ⁽¹⁾ **N**

Built-in structure for basin. Metallic profile capable of withstanding 150 kg. Installation minimum depth of 140 mm. Adjustable feet from 0-200 mm with braking system. Adjustable hydraulic connection.

Ref. A8900F3000
648 RON

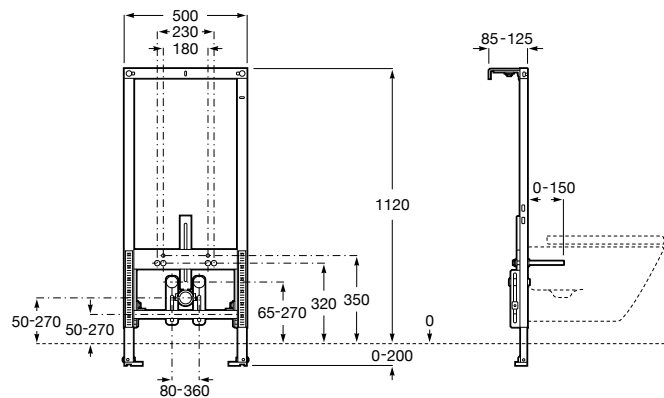

For wall-hung bidet

Duplo S Bidet ⁽¹⁾ **N**

Built-in structure for wall-hung bidet. Metallic profile capable of withstanding 400 kg. Installation minimum depth of 140 mm. Adjustable feet from 0-200 mm with braking system. Adjustable hydraulic connection.

Shower Solutions

A simple shower can be transformative without the need for a large space or complicated installations. Designed for any bathroom space and user needs, Roca's shower systems offer universal shower solutions. The ultimate soothing and cleansing experiences come in the form of handheld showers with multiple spray options or ceiling-mounted rain showers. Thermostatic mixers are designed for any type of wall and shower space, while smart shower solutions help reduce energy and water consumption and allow for programmable shower options. Elegant and modern designs, including chrome and matt black finishes on shower fixtures, add style and enhance the overall experience.

Universal
shower
solutions
designed for
any bathroom
space and user
needs

Technologies

Digital faucets and fittings

Mobile app. Option of programming the shower or filling the bath remotely and establishing different user profiles for a customised experience.

Intuitive use. Simple interface makes it easy to use and understand.

Childproof. Control system that prevents children from adjusting the temperature and flow.

Efficient. Pause mode to keep the temperature stable while lathering up so as not to waste water and energy.

Disinfection. Cleaning programme using water at the maximum temperature to eliminate germs and bacteria without chemical products.

Thermostatic faucets and fittings

Quick Reaction® technology. Desired temperature in just a few seconds, keeping it constant and saving water and energy.

Precision. Ergonomic control that allows the user to select the temperature quickly and precisely with a simple movement.

Security 38°. Temperature-limiting system that prevents it from exceeding 38° by default.

Safe Touch. Prevents overheating of the faucet body, avoiding burns when touching the metal parts.

Anti-scalding. If the cold-water supply is shut off, the flow of hot water will automatically stop.

Efficiency. Desired temperature is delivered almost instantly to avoid wasting water and energy.

Eco Stop button. Standard flow limiting system in the shower.

Pictograms

	Softurn	Smoothness and control of use thanks to exclusive Roca ceramic cartridges		Head shower adjustable	Rotating head shower that allows you to adjust its position for greater comfort
	Cold Start	Innovative water and energy saving system		Adjustable height	Height-adjustable telescopic column according to the needs or preferences of the user
	Flow limiter	Flow rate of the faucet in litres		Retractable spout	Retractable bath spout that integrates discreetly under the shower faucet when not in use, ensuring aesthetic appearance without visual or physical obstructions to the user
	SafeTouch	Prevents the chrome-plated bodies of Roca thermostatic faucets from heating up, preventing burns		With shelf	Built-in shelf enhances practicality by providing space for bathroom accessories
	Security 38°	Safety device for thermostatic faucets that prevents the water temperature from exceeding 38°C.		Pull-out spout	The spout is removed from the body of the faucet and is extended by a few centimetres to facilitate rinsing and improve the tasks carried out at the sink
	Quick Reaction	Ultra-fast setting of the desired temperature		Pull-out spout	The spout is removed from the body of the faucet and is extended by a few centimetres to facilitate rinsing and improve the tasks carried out at the sink.
	Technology On-Off Switch	On/off buttons with switch technology for selecting different water outlets, with integrated flow regulation		Filtered water	Healthy water straight from the faucet with a filtering system that removes chlorine, all types of solid particles in suspension and micro-organisms
	Universal connection	Flexible with 1/2" connection thread universal for compatibility with hand showers and faucets		Swivel spout	Spout that folds in on itself, freeing up space in installations in front of a window
	Flexible anti-twist 360°	Allows 360° rotation of the handshower, preventing the breakage of the flexible hose		Touchless	Contactless actuation

Digital Smart Shower

Remote control

Mobile app via Bluetooth® that enables users to programme the shower or remotely fill the bath at the desired temperature.

Intuitive use

Simple user interface that makes its operation very easy to understand.

Child protection

Blocking system that prevents the water temperature or flow from changing to protect the little ones.

Customized

User memory with different available profiles to enable each user to customize the shower and enjoy a custom-made experience.

Safety

Thermostatic technology that keeps the temperature and flow steady and constantly monitors the water temperature to avoid possible burns.

Easy disinfection

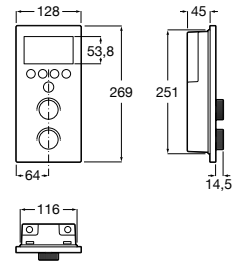

Cleaning programme that expels water jets at the maximum temperature to remove germs and bacteria from all pipes.

Saving of water and energy

Pause mode that keeps the temperature stable for a predetermined time to let users lather up without wasting water and energy.

RocaBox

Roca presents RocaBox, a universal shower valve housing unit which is compatible with a variety of manual or thermostatic built-in mixers. Easy to install, compact in size and suitable for installation in stud or solid walls, RocaBox is the perfect solution for areas with limited space.

Key Benefits

Durability. Exclusive ceramic cartridge, which allows a soft and precise operation, with a guarantee of one million opening and closing movements.

Universal. Compatible with both manual and thermostatic built-in mixers, supporting single or dual outlets.

Compact. Requires a minimum installation depth of just 70mm (including stud wall measurement). This makes it the most space-efficient universal body available, ensuring significant space savings in the bathroom.

Versatile Outlets. Can be configured with 1 or 2 outlets, allowing for multiple combinations.

Easy Access & Maintenance. Once installed, the RocaBox can be easily accessed and maintained. Shower mixers can also be changed effortlessly during future bathroom upgrades and renovations, saving time and reducing costs in commercial environments.

Protective Cover Plate. Comes with a protective cover plate that shields the unit from dust and dirt during construction.

Double Sealed. Offers superior water tightness due to its double-sealed design.

Compatibility. Compatible with various Roca built-in mixers, including both manual and thermostatic models.

Noise Reduction. Features a sound-absorbing back plate that reduces noise levels during operation.

Flexible Installation. Can be installed in both solid and stud walls.

WRAS Approved. Certified as a WRAS approved product, ensuring quality and safety.

5-Year Guarantee. Comes with a 5-year warranty for peace of mind.

Note: The RocaBox is a housing unit only. It must be installed with compatible built-in mixers and cover plates, which are sold separately.

Novelty

Sustainability
and safety are
integrated into
every faucet

A perfect union of precision technology and innovative design defines Roca's bathroom and kitchen faucets. Never before have there been so many possibilities – from colour, shape, finish and size – designed to appeal to a range of tastes and styles. Sustainability and safety are integrated into every faucet; non-toxic, highly resistant finishes such as Everlux PVD allow for a long life span, while energy saving systems such as Cold Start and advanced basin aerators limit and monitor water flow, giving each user peace of mind.

Key Benefits

Durability. Exclusive ceramic cartridge, which allows a soft and precise operation, with the guarantee of one million opening and closing movements.

Water savings. Latest generation of flow limiters to 5 L/min, regardless of the pressure system, with water savings of 60%*.

Homogeneous flow. Aerators with excellent aerated jet quality, even under complex pressure conditions. They come with anti-limescale protection for easy cleaning and maintenance.

Adaptability. Four heights for basin faucets (S, M, L, and XL in one piece) to provide greater user-friendliness.

Acoustic control. Sound reduction system integrated in the cartridges and faucets to limit the noise of the water.

Safety. Protective filters included in the aerators that stop any particles coming through from the mains.

Technologies

Cold Start

Energy savings. Basin models feature Cold Start, cold water opening that guarantees energy savings of 45%*.

Finishes

Evershine

A high-quality chrome outer layer guarantees a permanent shine and makes cleaning easier.

Matt finishes

Polyester thermosetting powder coating based on polyester resins, resistant to external agents, UV radiation and corrosion.

Materials

Everlux

Sophisticated. Exclusive and fashionable coating that adds distinction and uniqueness to the bathroom.

Sustainable. Purely physical technique that does not require harmful chemicals or generate water pollution during its production process.

Resistant. Additional layer on top of the chrome, based on noble and very hard metals ensuring the surface is extraordinarily resistant to scratches and cleaning products.

*Based on annual savings for a family of 4, considering 2 minutes per day of toothbrushing and handwashing 5 times a day.

A Perfect Fit

Five sizes, endless options

When it comes to selecting the perfect faucet for your bathroom or kitchen, size matters. Faucets are available in a range of sizes, each designed to suit specific needs and spaces. From the compact and space-saving S faucets to the grand and stylish XL faucets, there is a size to cater to every requirement and aesthetic preference.

S-Size. Small to medium-sized faucets, comfortable and appropriate for most standard bathrooms.

M-Size. Medium-sized faucets, versatile and suitable for a wide range of basin sizes. Perfect balance between functionality and style, with a higher body and longer spout.

L-Size. L-Size faucets are larger than the average faucet, with side handle and high spout. Useful for washing or filling large glasses or bowls.

XL-Size. XL faucets are the largest and most stylish type of faucets available, for use with over countertop basins.

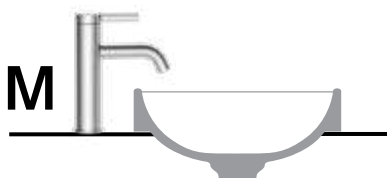

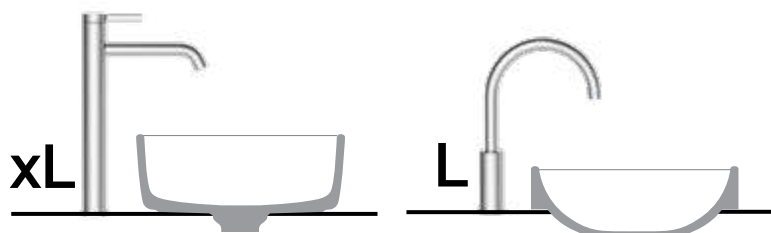

Compatibility with different basins (basin models and basin installation types)

XL-Size
Fit for over countertop basins.

L-Size
Fit for medium / large wall-hung or countertop basins.

M-Size
Fit for standard / medium sized wall-hung or countertop basins.

S-Size
Fit for standard wall-hung, countertop or undercountertop basins.

Mixer Naia in Everlux finish.

Insignia

Organic lines and a slim side handle in an ergonomic design with elegant finishes for bathrooms that are in search of design and sophistication.

Kitchen Mixers

Roca's kitchen faucets offer various styles, shapes, and colors that enhance kitchen design and performance with energy saving features. Ergonomic designs, versatile functions, and electrolytic coatings reflect Roca's high standards. Innovative features include Cold Start and ceramic cartridges, with soft movement, steady flow aerators, and low noise applications for everyday satisfaction.

Key Benefits

Wide range. Variety of styles and configurations for all kitchen needs and styles.

Pull-out spout. Pull-out sprayer with two functions: laminar splash-free function and spray function.

Shower function. Models with shower function for a more effective and efficient rinse.

Cold start. Cold opening that guarantees energy savings up to 35%*.

Durability. All models feature Roca's exclusive ceramic cartridge, which allows a soft and precise operation, with the guarantee of one million opening and closing movements.

*Based on annual savings for a family of 4, considering 2 minutes per day of toothbrushing and handwashing 5 times a day.

Finishes

Evershine. Electrolytic coating guarantees permanent shine over time and makes cleaning easier.

Everlux. Physical vapor deposition (PVD) process, ensuring a perfectly even finish.

Matt finishes. Polyester thermosetting powder coating based on polyester resins

Subtle yet essential features provide pleasant everyday experiences and long-term satisfaction

Pictograms

	Pull-out spout	The spout can be pulled out of the body of the faucet and extends by a few centimetres to make rinsing easier and to improve the tasks carried out at the sink.
	Pull-out spout	The spout can be pulled out of the body of the faucet and extends by a few centimetres to make rinsing easier and to improve the tasks carried out at the sink.
	Filtered water	Healthy water directly from the tap with a filtering system that removes chlorine, all kinds of solid suspended particles and microorganisms.
	Folding spout	Spout that folds back on itself, freeing up space in front-of-window installations
	Swivel spout	Swivel spout provides 360 degree flexibility allowing effortless access to multiple areas of the sink
	Shower function	Improves practicality and the kitchen experience in the kitchen area in general, providing greater flexibility and control on the water flow
	Cold Start	Innovative water and energy saving system
	Flow limiter	Faucet flow rate in litres

Filtered Water Faucets

Roca's Kitchen Filtration Systems offer a safe, convenient, and sustainable solution for cooking and drinking. With easy installation under the sink, the collection includes a variety of faucets with three designs and two finishes, each equipped with a five-stage filter integrated into the faucet. An LED light provides a timely alert when the filter requires replacement, ensuring continuous access to clean and filtered water.

Removes impurities, limescale and chlorine improving the taste of the water

Healthy.

Good quality drinking water with no chlorine taste or smell.

Ecological.

Sustainable solution to plastic bottles.

Instantly.

Healthy water straight from the tap by simply turning the left handle.

Economical.

Filtration capacity of 1,200 litres of water per cartridge.

Easy to maintain.

Replaceable filter cartridge in less than 10 seconds.

Ideal for cooking.

Cleaner water without substances such as chlorine that alter the taste of food.

5 Stage Filter System

5

Fine Filtration

Reduces fine particles

3

Membrane filtration

Removes particles, bacteria, viruses and heavy metals.

1

High-Performance Ion Exchange Unit

Removes limescale and other substances to soften water.

4

Activated carbon block filtration

Removes impurities such as colour, odour, residual chlorine and volatile organic compounds including secondary products of disinfectants

2

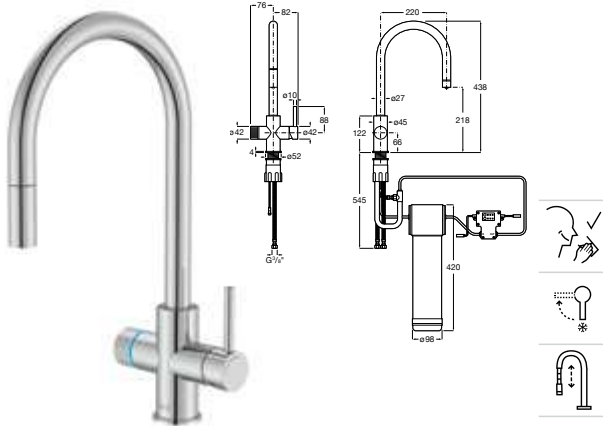

Sediment filtration

Captures solid impurities such as small solid particles, sediments and rust

Baths

The right bath can become the centrepiece of any bathroom space. A place to disconnect, soak and rejuvenate, baths need to be both ergonomic and elegant be they freestanding or inset. Roca offers a wide selection of baths available in classic, vintage or modern designs. These baths are crafted using a variety of materials, including cutting-edge components that enable thinner and more curvilinear shapes. Additionally, they incorporate advanced features to enhance hygiene and ensure increased safety.

A place to disconnect, soak and rejuvenate, baths need to be both ergonomic and elegant

Hydromassage Systems

Basic

Continuous water massage. Pneumatic push button.

The Basic system consists of an On/Off water hydromassage function controlled by a pneumatic push button. This system includes lateral adjustable jets that provide a continuous water massage.

Tonic

Invigorating water massage. Electronic push button.

The Tonic system features a water hydromassage that can be adjusted by means of a power-regulating push button. This system is equipped with lateral adjustable jets to ensure a continuous water massage.

Total

Invigorating water massage and relaxing air massage. Electronic digital panel.

The Total system features a water-air hydromassage managed by an LCD digital panel. It offers a range of massage programmes, including continuous or pulsating options, and an electronic Venturi function. This system incorporates lateral, back and feet jets, as well as air jets positioned at the base of the bath. All of these jets can be adjusted through the digital panel. The Total system is also equipped with temperature and level sensors to guarantee optimal bath performance.

Total Premium

New experiences, better sensations.

The best sensations with the most comprehensive hydromassage system by Roca. Choose, combine and customize your relax session with the water-resistant remote control with touch screen; massage on feet, back, soft air bubbles or new experiences through chromotherapy. The baths with Total Premium hydromassage include a selfcleaning system and the maintenance of the temperature to maximize your well-being.

Hydromassage Functions

Water massage

The water massage is delivered through jets that release a mixture of water and air, creating a toning effect on our bodies. The intensity of the jets can be adjusted using a manual or electronic Venturi function, depending on the system, allowing for customised water pressure, with a softer or more invigorating experience.

- Lateral massage: Adjustable jets located on the side of the bath.
- Foot massage: Specific for feet.
- Back massage: Specific for the back.

Air massage

This massage is performed using bubbles that are released through small jets positioned at the base of the bath. An air massage is softer and more relaxing than a water massage, and the intensity of the bubbles can be adjusted using various control options.

Two different technologies are available:
Air jets and Soft jets

Chromotherapy

The Total Premium system includes the chromotherapy function, which works with 3 LED spotlights that change colour to create an immersive atmosphere. These lights are the ideal complement for a total hydromassage session.

Customization

Some systems allow users to personalise their massage session by creating programmes that align with their individual needs and preferences. This user-friendly feature enables quick and easy customization.

Self-cleaning

In small quantities, ozone generates a cleansing effect throughout the entire hydromassage system, guaranteeing a clean and hygienic experience every time it is used.

Control Panels

Pneumatic push button
Available in the Basic version. Pneumatic push button to activate and deactivate the hydromassage.

Electronic push button
Available in the Tonic version. Electronic push button to activate and deactivate the hydromassage. The Venturi function (intensity regulation) is activated by turning the push button. The illuminated Roca logo signals massage activation.

Digital panel
Available in the Total version. Digital panel with LCD screen. Menu navigation with three buttons that allow users to activate, deactivate, change, and adjust the various functions.

Remote control
Available in the Total Premium version. Water-resistant remote control with touch screen. Navigation based on each one of the icons that activate/deactivate each function. Icon-based navigation, with each icon corresponding to a specific function that can be activated or deactivated.

Types of Jets

Lateral adjustable water jet Ø 50 mm
Lateral jet that can be adjusted to alter the direction of the water. This allows the massage to be adapted to the needs and preferences of each user.

Back rotating water jet Ø 32 mm
The back jet has a rotating function performs a gentle massage, especially designed for the back area.

Foot jet Ø 32 mm
The foot jet consists of a microjet designed with minimum dimensions to ensure a gentle massage on the soles of the feet.

Air jet Ø 27 mm
The air jets have undergone a redesign. Featuring a more oval and flatter shape, this new design enhances comfort and improves overall cleaning efficiency.

Soft jet
The soft jets combine the effect of air and water to create champagne-like bubbles from the base of the bath.

Stonex[®]

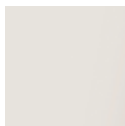

The plasticity of the blend of resins, minerals and pigments used in this material is key to designing original baths with innovative features.

Shower Trays

The perfect shower experience starts from the ground up. Shower tray collections are available in a variety of colours and innovative surface finishes, such as the improved Stonex® formulations made with recycled PET bottles. Key tray features include slip resistant surfaces, durable coatings for wear and tear and easy cleaning. Showers can be customized down to the size of the shower tray or the shape and position of the drain.

Shower Enclosures

Contemporary design amenities such as an integrated towel rack or an optional shelf considers everyday needs

Key Benefits

Resistance. Corrosion resistance verified with 200 hours of testing in a saline mist environment.

Easy cleaning. Door release system to make cleaning between glasses easier.

Durability. Proven mechanical resistance with 20,000 opening and closing cycles guaranteed.

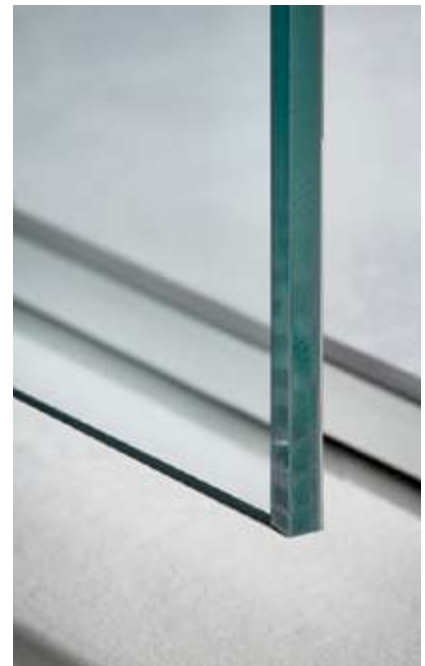

Maxiclean®. Exclusive treatment that repels water, avoids limescale and the buildup of dirt, making cleaning easier.

Security. Tempered glass that, in the event of breakage, breaks up into small pieces to limit the risk of accidents.

Easy installation. Models with dual installation, and a high-quality adhesive installation system, which simplifies the process and avoids the need for drilling into the wall.

Adaptability. Compensation system so the shower enclosure can be adapted to the irregularities of the wall and optional brace support to ceiling.

With the large variety of the Roca shower enclosures, it's easy to find the right solution for any shower space. Whether the bathroom is spacious or compact, there are options for one or two doors, sliding doors, and corner configurations, all available in polished silver and brushed matt black. Contemporary design amenities, such as an integrated towel rack or an optional shelf, considers everyday needs. Roca shower enclosures are designed to resist corrosion and prevent the build-up of limescale.
