DESIGNED WITH EXPERTS

TASARIMCININ
GÖZÜNDEN

Mimari, tasarım ve sanatın tüm formları, sıradan yaşantılarımıza ve bu yaşantılarda hayatımızı sürdürdüğümüz alanlara anlam katan temel araçlar. Tasarımcının zihninde uzun sürelerde, birikimsel olarak oluşan soyut varlıkların birer somut esere dönüşmesi, başka bir deyişle fiziki eserin doğuşu; aslen bir değer üretim sürecinin nihai anını işaret ediyor. Tüm bu süreçte tasarımcı kadar tasarıma ilgili talebi oluşturan kitleler de eserin niteliğini belirliyor...

TUBA METE GEÇKİN

İÇ MİMAR
INTERIOR DESIGNER

T. Mete Geçkin.

Architecture, design, and all forms of art are fundamental tools that add meaning to our everyday lives and to the spaces in which we live them. The transformation of abstract ideas—formed gradually and cumulatively in the mind of the designer—into tangible works marks, in essence, the final moment of a value creation process. Throughout this journey, it is not only the designer but also the audience, whose interest in art shapes the demand, that helps define the quality and significance of the work.
